~ Chaplain's Chatter ~

Did you know that each year Pope Benedict XVI issues a pastoral letter on the subject of technology, communication and spirituality? He does so each year on World Communications Day.

While embracing these new forms of communication, e.g. Facebook and acknowledging their value in creating community, the pope asks some great questions about how this technology affects how we understand ourselves and relate to our neighbor. Below are a few highlights from this year's letter titled "**Truth, Proclamation and Authenticity of Life in the Digital Age**". Enjoy!

"As with every other fruit of human ingenuity, the new communications technologies must be placed at the service of the integral good of the individual and of the whole of humanity. If used wisely, they can contribute to the satisfaction of the desire for meaning, truth and unity which remain the most profound aspirations of each human being."

"The new technologies allow people to meet each other beyond the confines of space and of their own culture, creating in this way an entirely new world of potential friendships. This is a great opportunity, but it also requires greater attention to and awareness of possible risks. Who is my "neighbor" in this new world? Does the danger exist that we may be less present to those whom we encounter in our everyday life? Is there a risk of being more distracted because our attention is fragmented and absorbed in a world "other" than the one in which we live? Do we have time to reflect critically on our choices and to foster human relationships which are truly deep and lasting? It is important always to remember that virtual contact cannot and must not take the place of direct human contact with people at every level of our lives."

Coming Out Spiritually!

This annual series of programs explores the dynamic themes of **spirituality and sexuality** with a particular focus on **LGBT issues**. Many LGBT (lesbian, gay, bisexual and transgender) people struggle to accept who they are in the eyes of their religious traditions. Coming Out Spiritually promotes spiritual acceptance of all people.

"Comfort is the great human gift that creates community. Those who come together in mutual vulnerability are bound together by a new strength that make them into one body." ~ Henri Nouwen.
