Nazareth College supports the following statement on "Software and Intellectual Rights" by EDUCOM:

> Respect for intellectual labor and creativity is vital to academic discourse and enterprise. This principle applies to works of all authors and publishers in media. It encompasses respect for the right to acknowledgement, right to privacy, and right to determine the form, manner, and terms of publication and distribution
>
> Because electronic information is volatile and easily reproduced, respect for the work and personal expression of others is especially critical in computer environments. Violations of authorial integrity including plagiarism, invasion of privacy, unauthorized access and trade secret and copyright violations, may be grounds for sanctions against members of the academic community.

Your signature below indicates that you have read, understand, and agree to comply with the statement above. In addition, you must maintain a secure password, and agree to use this computer account to access your own personal resources only and not attempt to circumvent system security mechanisms. **Failure to comply with any of the above guidelines may result in disciplinary action by the College.**
