

SSSSSay? Why Should I Live on Campus????

Social Networking

Sure you can text and IM your friends and you can even look them up on Facebook and MySpace! However, there is nothing like walking down the hall to share a bag of popcorn or stopping your professor in the Cab with a quick question. Chances are there is someone always around to talk with, not to mention that strong sense of support you get from living in a campus community.

Spontaneity

Your classmate is right down the hall and you can always form a quick study group to solve a problem. If you want to shoot some hoops or play Apples to Apples, there is always someone around who will participate. You can always get someone to grab a garbage plate with you and you never have to cook or do the dishes unless you just want to do so!!!

Simplicity

Living on campus gives you easy access to the library, dining halls, classes, computer labs and other amenities. You don't have to deal with traffic and parking to get to class. You also have access to 24-hour emergency maintenance, Campus Safety, and Residential Life staff on call. Additionally, Naz has its own RTS stop connecting us to the City of Rochester.

Staying Connected

There is a close relationship between involvement in campus activities and on-campus living. Residents living on campus tend to be more satisfied with their collegiate experience and more comfortable in the college environment. They are more likely to become involved in student organizations, develop a social network, and have better overall success as a student compared to those who live off-campus.

Saving Money

The charge for your residence hall room covers: rent, high-speed internet access, cable television, laundry facilities, local and on-campus phone, water and heat, staff support, and hall programs and activities. If you live off-campus you may have to add the cost of paying utilities, commuting to and from campus and buying and/or renting furniture. Gas prices are not getting any cheaper and keep in mind the horrors of commuting in a Rochester winter!
