

Student view in Starfish

When you first login to Starfish, you will see your “Success Network”, the list of your instructors, advisors, career coach, and others who are here to support you. Click on any of the names in your Success Network to view that person’s contact information. If individuals in your Success Network use the Starfish appointment scheduling system, you will also see an option to schedule an appointment.

Below your personal Success network is a list of campus services. Again, you can click on a specific service to see contact and other information and to schedule an appointment if the service utilizes the Starfish appointment scheduling system.
